

24th March 2021

Dear Resident,

Channel View Regeneration - Phase 1, Replacement homes for Channel View High Rise.

As you may be aware the priority for the first phase of the Channel View regeneration scheme is to provide replacement homes for all the residents in the existing high-rise block.

Following the development of the masterplan and our recent public consultation we have been working hard to develop more detailed plans of phase1 and are now in a position to be able to discuss these with you in more detail.

The attached document provides details of what phase 1 will look like and how the flats could be designed with examples of what we are delivering on our other projects.

We would like to understand your views on what we are proposing so that you can help shape what your new home will look like.

In these difficult times we are unable to hold face to face workshops as we had originally planned. However, you are invited to an online design workshop to hear the architects explain the scheme and answer your questions on the design.

If you are able to join the workshops these will be held online on ZOOM and a link will be sent to your email address to enable you to access it on request.

Workshop 1 - 8th April 2021 at 4pm

Workshop 2 - 9th April 2021 at 10am

Please email channelview@cardiff.gov.uk or call 07813 522984 to confirm which workshop you would like to attend and with any questions you would like answered.

If you are unable to make the design workshops we would still like to hear your views on the designs. Please email us or call us with any questions or comments you have and we will get back to you.

A recording of the architects presentation and a summary of the questions and responses will be available on our website.

Yours sincerely

PLEASE REPLY TO: Housing Development, Cardiff Council, Room 412, County Hall, Atlantic Wharf Cardiff, CF10 4UW
